Brad's Cuban Bean Dip

This is truly one of my favorite recipes for an appetizer or even a meal - totally yummy! [Read More....](#)

Brad's Cuban Bean Dip

Smash and schmear a package cream cheese (not fat-free!) in a baking dish. Next, dump a can of slightly drained Black Beans on top of the cream cheese, spread them

out and smush them down with a fork. Throw a chopped red onion on top of that. Sprinkle a chopped Jalapeno pepper on top of that and are you ready?

Sprinkle an 8oz bag - and a half 12 oz total of shredded Queso Quesadilla cheese - right out of the bag. If you can't find that style, just use cheddar and spice it up a little with chili powder or Mexene, a little cumin and some cilantro.

That's all - truly a ten minute prep. you can create by putting in chicken, little shrimp, etc. Throw it in a 350 oven for 20-25 minutes, serve with your favorite tortilla chip and Oh My Gosh - heaven.

NOTE - the guys will be around to pick up branches and "stuff" - please help them by picking up debris around your home.

Thank you!

What does Spring and Summer mean to you?

For me Spring is the absolute best time of year.

It's the time of year that feels energizing. The outside world is more colorful, the birds are chirping, mating and nesting, the nights are brighter. It is the time of year that feels energized. The tulips and daffodils are pushing their way through the soil, seeds are germinating. It's alive!!!

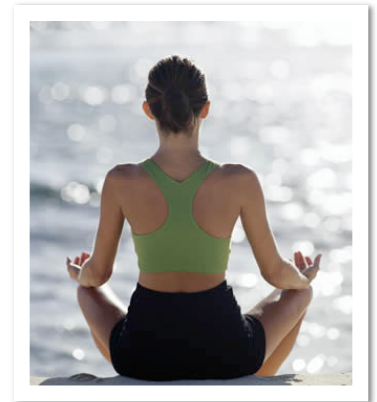

Do you feel it? Are you looking at the life around you?

People make resolutions at New Year's and then struggle as the earth slumbers to stay motivated.

If you haven't kept those resolutions modify them and restart now that the earth is awakening with you. I guarantee that it is easier to make changes in a season of change than it is to make change when the earth is dormant.

Take advantage of this renewal and energy around you and use it to reach your goals! Goodness I love Spring!

Two Sudoku Puzzles for you – these are hard rascals, but the boys love them! I hope you love them too!

The objective of the game is to fill all the blank squares in a game with the correct numbers.

There are three very simple constraints to follow.

In a 9 by 9 square

Sudoku game:

- Every row of 9 numbers must include all digits 1 through 9 in any order
- Every column of 9 numbers must include all digits 1 through 9 in any order
- Every 3 by 3 subsection of the 9 by 9 square must include all digits 1 through 9
